Latest List Update

This is an update to let you know my thoughts for the immediate future in these difficult times.

Even though I will be seventy in March, having joined B.A.Seaby Ltd in 1968, I intend to continue trading.

However with no coin shows for over a year and fewer auctions, it has become difficult to buy. Because of less material in auction and worldwide bidding, the prices reached are significantly higher than previously (despite high charges to buyers and some seller's commission) and it has become increasing hard to make a reasonable profit and maintain my reputation for fair prices.

With all this in mind I would obviously say that I am still very keen to buy material. However I cannot say when or even if the next list will be produced. I will continue with 'wants' lists as long as I can.

If this is the beginning of the end (certainly not the end of the beginning, thank you Mr Churchill !) and I hope not, then thank you for your support over the years for what has been a very fortunate and blessed working life – but I must emphasize that I am not retiring yet!

Regards, Stephen Mitchell
